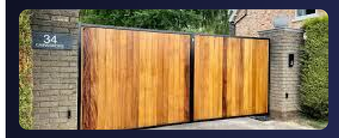
ABOUT US

L. A. Ornamental & Rack Corp offers a wide range of ornamental and decorative designs in aluminum or wrought iron metals, along with fences and garden gates to match. With over 35 years of experience, they specialize in manufacturing elegant, custom, or exotic aluminum driveway gates and fences. They emphasize their dedication to quality workmanship and invite customers to request a quote by emailing LAOrnamental@aol.com.



WHY CHOOSE US:

1. **Cost:** Aluminum gates are now less expensive than steel gates, unlike 10 years ago when they were pricier. While ornate wrought steel gates may still be costly, aluminum allows for similar designs within budget constraints.
2. **Weight:** Custom-made aluminum gates are significantly lighter than steel gates, making them easier to open, especially with automatic systems. Their lightness minimizes wear on rollers and hinges, potentially extending the lifespan of gate openers by up to 50%.
3. **Durability:** Aluminum gates are immune to rust and corrosion, ensuring longevity. Crafted from solid plate aluminum, these gates are robust, with designs often featuring thick materials that enhance durability without adding excessive weight.
